Rotary Teams Challenge 2023

The Rotary Teams Challenge is a new addition to the 2023 event. The aim of the **Rotary Teams Challenge** is to encourage group participation from friends, families, schools, businesses and more across the region to run in the name of raising funds for local children's charities.

How it works

Step 1: Think about a local children's charity that you would like to donate too. The charity needs to be formally registered with the ACNC. You can find a list of registered charities at this link: https://www.acnc.gov.au/charity/charities

Step 2: Find a team of 8 people.

8 people means 1 entry into the random draw. 16 people in a team = 2 random draw entries. 24 people = 3 entries etc

Step 3: When you enter online, make sure you enter the same team name as your other team members

Step 4: Run the event and be at the presentation

Step 5: 5 x $1,000 random draws will be drawn at the presentation at 12:00pm on Sunday 10th September.

The 5 x $1,000 random draw will be donated by the team to a charity of their choice. For example, if your team's name is drawn, you must come up to the presentation stage and tell everyone which local children's charity you will be donating to. You team name and charity will be mentioned in the local media and on the website.

Teams must be in attendance to donate their random draw amount.

Distances on offer include the 36.1km, half marathon (ages 16+), 10km (12+), 5km (all ages) and 3km (all ages) events all held on the picturesque Coffs Creek Walkway. If you enter multiple events or the 36.1km, multiple team entries into the random draw will be counted.

All events start and finish at the Coffs Harbour Showground.

Entries for the event are now open at coffsrunfestival.com
